

How to navigate on the UTC Aerospace Systems' Customer Training website
After your registration is accepted, you will be able to search the course calendar, register for instructor-led or online courses, and view training manuals. Please review the steps below to assist with navigation.

Step 1: Login to the Customer Training Learning Management System (LMS)

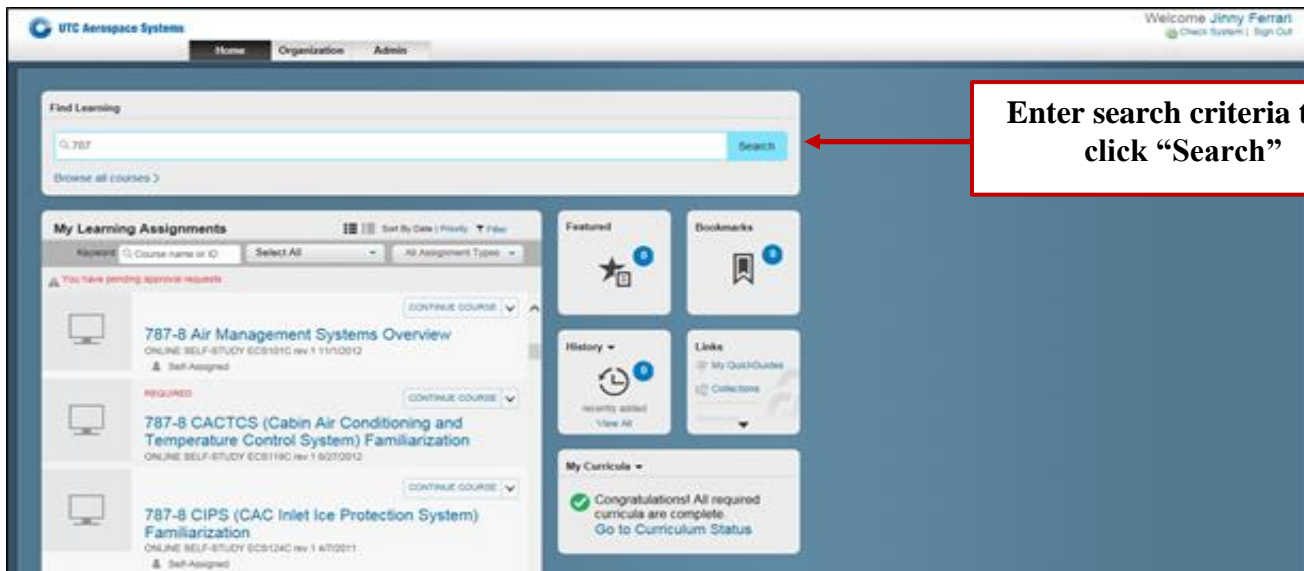

- Click here to access the website: <https://utc-external.plateau.com/plateau/user/nativelgin.do>
 - The screen below will appear.
- Enter your User ID and Password
 - If you forgot your User ID or Password, please eMail us at gphsctc@hs.utc.com (the “Forgot Password?” and “Forgot ID?” links are not active and will not provide a User ID or Password).

Enter User ID and Password then click “Sign In”

Step 2: Find Learning

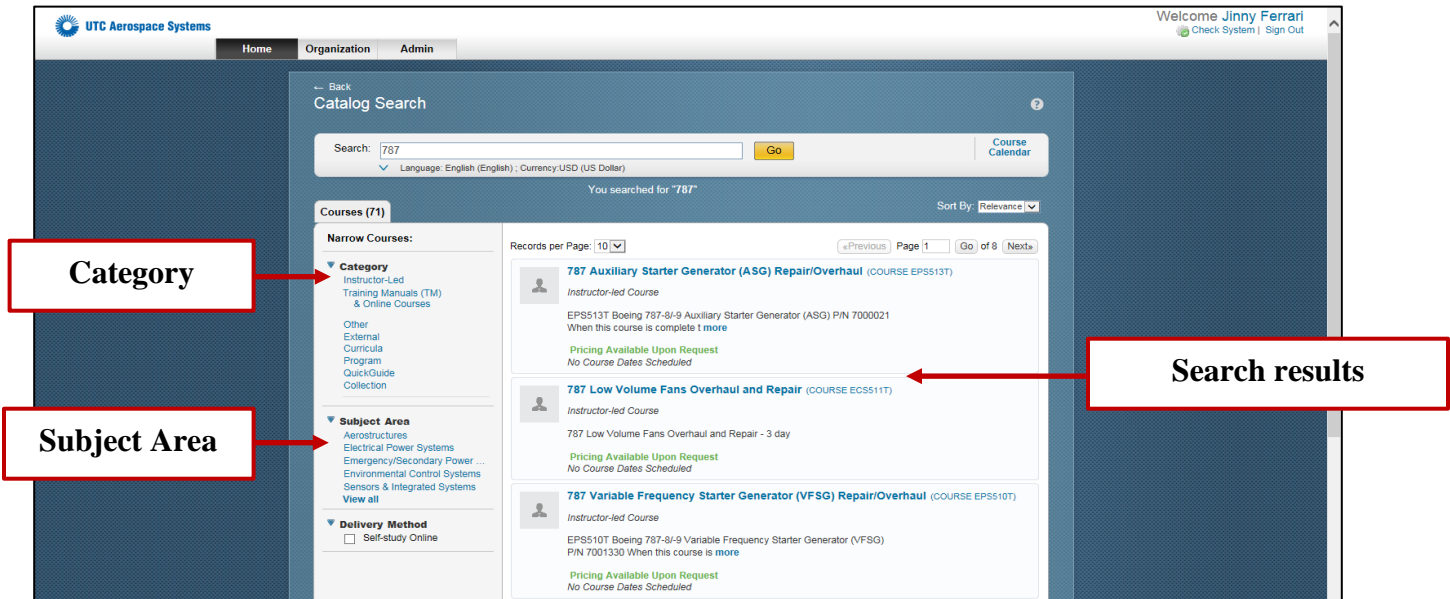

- Type your search criteria in the “Find Learning” field then click “Search”

Enter search criteria then click “Search”

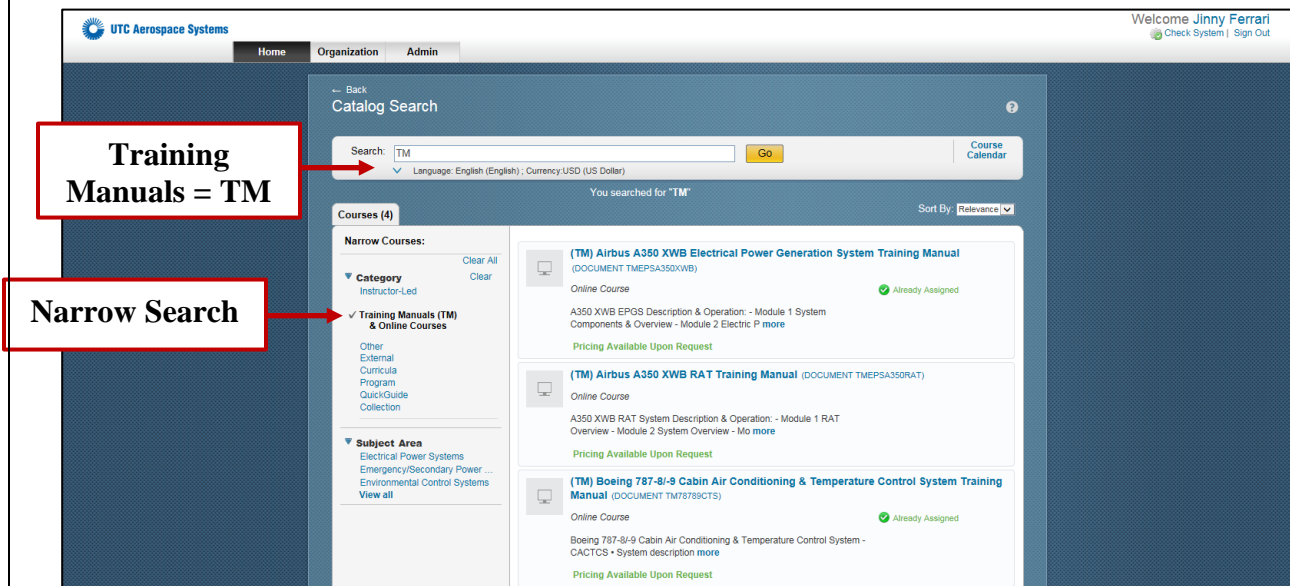

Step 3: Search Catalog

- All learning items using your search criteria will be shown; this includes instructor-led courses, online learning and training manuals.

Step 4: Narrow Search

- You can narrow your search by using the “Category” choices (Instructor-led, or Training Manuals (TM) & Online Courses) or “Subject Area”.
- In this example “Training Manuals (TM) & Online Courses” are chosen in the Category section.
- To search for only “Training Manuals” type “TM” in the Search field above. All training manuals will be shown and are designated with (TM) in the beginning of the title.
 - NOTE: There is no charge for training manuals at this time.

Step 5: Course Designations & Assignments/Requests

- **Instructor-led courses, training manuals and online learning are all listed as “Courses”**
 - All courses can be self-assigned or assigned by the UTC Aerospace Systems’ Customer Training administrator by direction from your company’s management.
 - Self-assigned courses and training manuals will require approval by the UTC Aerospace Systems’ Customer Training administrator.
 - Only courses and training manuals applicable to your company’s fleet will be approved.
 - Most instructor-led courses will have a corresponding training manual that will be assigned by the UTC Aerospace Systems’ Customer Training administrator at the same time as the course.
 - If your required course is not yet scheduled, please contact gphsctc@hs.utc.com to be added to our course request list.
 - Once there is enough interest in the subject course, you will be notified with the date and location of the training and if charges will apply.

Welcome Jinny Ferrari
